STATUS OF PROJECT: Construction began Jan 48 and deliberate impoundment began 14 Sep 53. Impoundment after modification of the dam began 1 Dec 75. Project is complete and operational.

*NON-FEDERAL PARTICIPATION AND LOCAL COOPERATION:

A contract with the North Texas Municipal Water District was approved 8 Jul 54 for 100 percent (100,000 ac-ft) of the conservation storage between elevations 472.0 and 453.0 ft msl. NTMWD will pay \$1,445,261.67, inclusive of interest charges, in addition to their share of the annual O&M cost, for this storage space. Another contract with NTMWD was approved 22 Sep 67 for 43 percent (120,000 ac-ft) of the conservation storage between elevations 492.0 and 472.0 ft msl. NTMWD has furnished assurances that the remaining 57 percent (160,000 ac-ft) of this raised conservation storage will be purchased within the project life. NTMWD will pay \$16,129,750.23 and \$21,381,296.81, respectively, in addition to their share of the annual O&M cost, for these present and future water supply storages.

REMARKS:

FC Act of 23 Oct 62 provides for modification of the reservoir and channel improvement downstream. The top of dam was raised 12' allowing the conservation pool elevation to be raised 20'.
